1. Introduction & Overview

The Partner & Reseller Management Module is a comprehensive solution for managing B2B partnerships, deal registrations, and commission tracking within Perfex CRM. This module enables businesses to:

• **Manage Partner Relationships:** Maintain detailed partner profiles with contracts, documents, and contacts
• **Process Deal Registrations:** Allow partners to submit deals with built-in duplicate detection
• **Track Commissions:** Automatically calculate and manage partner commissions
• **Generate Reports:** Access comprehensive analytics and performance metrics
• **Enable Self-Service:** Partners access dedicated portal for deal submission and tracking

Key Benefits

• Streamlined partner onboarding and management
• Automated deal approval workflow with duplicate protection
• Flexible commission structures (fixed, percentage, tiered)
• Multi-channel notifications (Email, WhatsApp, Telegram)
• Real-time analytics and performance tracking
• Secure partner portal with role-based access

2. Getting Started

2.1 System Requirements

Component	Requirement
Perfex CRM	Version 2.3.0 or higher
PHP	7.4+ (8.0+ recommended)
MySQL/MariaDB	5.7+ / 10.2+
Web Server	Apache/Nginx with mod_rewrite
SSL Certificate	Recommended for security

2.2 Installation Steps

Step 1: Upload the module folder to your Perfex CRM installation: /modules/partner_reseller/

Step 2: Log in to Perfex CRM admin panel

Step 3: Navigate to Setup → Modules

Step 4: Find 'Partner & Reseller Management' in the list

Step 5: Click the 'Install' button

Step 6: Wait for installation to complete (database tables will be created automatically)

Step 7: Click 'Activate' to enable the module

Step 8: Navigate to Settings to configure module options

Note: After installation, configure your notification settings and commission structures before onboarding partners.

3. Admin Panel Guide

3.1 Dashboard Overview

The dashboard provides a comprehensive overview of your partner program performance:

Key Metrics:
• Total active partners and pending registrations
• Current deal pipeline (pending, active, won, lost)
• Revenue generated through partners
• Commission totals (pending, approved, paid)

Visual Charts:
• Monthly revenue trends

6. Best Practices

For Administrators:
• Review and approve deals within 24-48 hours
• Maintain clear communication with partners
• Process commissions promptly to maintain trust
• Regularly review partner performance metrics
• Keep commission structures up to date
• Conduct quarterly partner reviews
• Ensure all KYC documents are current

For Partners:
• Provide accurate and complete deal information
• Submit deals as early as possible in sales cycle
• Keep profile and contact information updated
• Respond quickly to admin requests for information
• Follow up on deal status regularly
• Maintain professional communication
• Understand your commission structure

Security Best Practices:
• Use strong, unique passwords
• Never share login credentials
• Log out after each session
• Report suspicious activity immediately
• Keep your contact information current
• Review activity logs periodically

7. FAQ & Troubleshooting

Q: How long does deal approval take?

A: Typically 24-48 hours. You'll receive email notification when approved or if more information is needed.

Q: Can I submit the same deal as another partner?

A: The system automatically detects duplicates. First partner to submit a unique lead gets ownership.

Q: When will I receive my commission?

A: Commissions are paid based on your agreement terms, typically after deal completion and invoice clearance.

Q: How do I update my bank details?

A: Go to Profile → Bank Details and update your information. Changes require admin verification.

Q: My login is not working, what should I do?

A: Use the 'Forgot Password' link or contact admin support for assistance.

Q: Can I track multiple deals at once?

A: Yes, view all your deals in the Deals section with filtering and sorting options.

Q: How are commissions calculated?

A: Based on your commission structure (fixed, percentage, or tiered) as defined in your partner agreement.

Troubleshooting Common Issues

Issue: Cannot submit deal
Solution: Ensure all required fields are filled. Check internet connection. Contact admin if problem persists.

Issue: Not receiving notifications
Solution: Check email spam folder. Verify email address in profile. Ensure notifications are enabled in settings.

Issue: Deal showing as duplicate
Solution: Another partner already submitted this client. Contact admin if you believe this is an error.

Issue: Commission amount seems incorrect
Solution: Review your commission structure. Check deal value. Contact admin for clarification.

Issue: Cannot access partner portal
Solution: Verify your account is active. Clear browser cache. Try different browser. Contact admin support.
